Client QUESTION OF THE MONTH

Cashflow Focus v Budget Focus

Both are important, but without cashflow, you're in crisis.

WHY CASHFLOW IS CRITICAL

- Cashflow keeps the lights on – it pays salaries, suppliers and bills.
- No cash = no choices. Even profitable businesses can fail without it.
- It shows you when money is coming in and going out.
- It gives early warning of problems.
- It helps you make smart, timely decisions.

WHY BUDGETS MATTER TOO

- A budget is your roadmap – it sets the targets for income, profit and growth.
- It helps you plan ahead and allocate resources wisely.
- It allows you to track performance and take action.
- It drives better decision-making and long-term success.
- Together, cashflow + budget = control, clarity and growth.

Most businesses chase money (invoices, payments, debtors) and forget to chase profit and growth.

Stop reacting. Start leading.

The Shift:

From Crisis Mode (Surviving day-to-day) → To Business Mode (Growing with purpose)
